

# iRobot Roomba 560 Battery Replacement

Replace the battery in your Roomba 560.

Written By: Mairead Blaes

## INTRODUCTION

Use this guide to replace the Roomba's battery if the device shows signs of a faulty or damaged battery. Signs of a bad battery include an inability to hold charge or a short run time while cleaning. Battery damage can be caused by overuse, or exposure to heat and water.

---

### TOOLS:

- [JIS #1](#) (1)
-

## Step 1 — Side Sweeper

- Flip the Roomba upside down.
- Unscrew the single 5 mm screw on the yellow side sweeper using the Phillips JIS #1 driver.

## Step 2

- Lift the yellow side sweeper, removing it from the device.

## Step 3 — Battery

- Using the Phillips JIS #1 driver, remove the four 10 mm screws that hold the back panel in place.

## Step 4

- Lift up the back panel to remove it from the device.

## Step 5

- Lift up the yellow battery by pulling up the green tabs on its side.

⚠ Handle the battery with care.

To reassemble your device, follow these instructions in reverse order.
